

Quality Policy

Optimec Systems Limited are focused on providing excellent products and services that meet the needs of our global customer base. Our quality policy is therefore:

- To implement and maintain a Quality Management System (QMS) that satisfies the requirements of ISO 9001:2015 and any other specific requirements from our customers
- To comply with all relevant statutory and regulatory requirements
- To consistently provide products and services that meet the requirements of our customers in all respects
- To implement appropriate processes that address any risks and opportunities associated with both internal and external issues, and to meet the requirements and expectation of interested parties
- To ensure all company staff are wholly competent to carry out their duties
- To make every effort to continually improve our products and services provided to customers using our QMS, quality objectives and continuous evaluation through internal audits, corrective actions and management review
- To maintain documented evidence for demonstrating compliance with the QMS
- To control and continuously monitor all projects
- To review the QMS at regular, planned intervals to ensure it remains effective and achieves its stated aims

The senior management team are fully committed to the above and encourage all staff to a similar commitment.

The Quality Policy is evaluated in line with the overall review of the QMS to ensure all its stated aims are met.

By signing this Quality Policy, the Director gives his approval to the Quality Management System described in this manual and in supporting Company processes

Signed,

A handwritten signature in black ink, appearing to read 'Benjamin Coldrick', with a long horizontal flourish extending to the right.
